* Rough opening shown for 14" sidelites. For 12" sidelites deduct 2" for EACH sidelite. For 16" sidelites add 2" for EACH sidelite. NOTE 16" sidelites are not available in fiberglass
R.O. (Rough Opening) This is the width from raw wood stud to stud measurement and the height from raw header to Plywood or concrete floor. Please note we allow 1-1/2" under door for flooring. If you want less clearance under the door you must trim the **bottom** of the jamb legs. (This will drop the door height)
